# Performer Grand 2000

HyperBeam™ 100-CD Jukebox

Encore  
Performance

# The Grand Lady.

Even more beautiful. Even more capable. Even more.

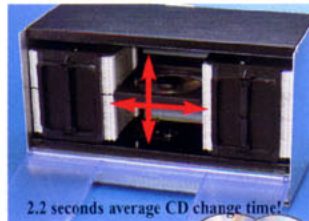

No jukebox in modern history so captivated its industry audience — operators, establishments and patrons alike — than the Performer Grand when it first debuted in '91. Its magic knew no age or cultural boundaries. And its appeal did not diminish with time. Indeed, its magic has grown even wider, even stronger with the passage of time.

Thus, unusual as it is to re-introduce a model — a first in our 40-year jukebox history — it seems totally natural. Almost a mandate.

The new Performer Grand 2000 has all the magic of its predecessor. Except it's even more beautiful with its glowing laser rod animation and color-intensified display. Even more capable with its new ultra-performance HyperBeam system. Even more magical.

## Standard Features

- The world's fastest 100-CD single player changer ... now even faster! More paid for plays compressed into less time.

- The world's most protective CD handling & storage ... now even better! CDs never so much as touched. All "cradled" in individual trays. Snap in & out magazines.

- The world's most technologically advanced system ... now even further advanced! "Componentized" system - components plug in & out. Even more compact changer. Even more efficient electronics.

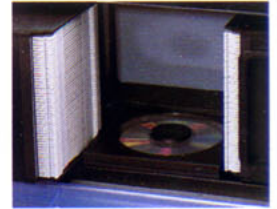

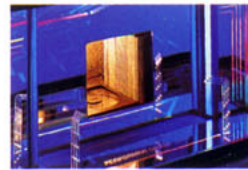

- The world's most ergonomically perfect controls ... easy to use!

Palm-press selection button. Telephone-like keypad entry. Eye-level positioned title strips.

- The world's most feature-packed jukebox ... over 100 program-mable functions & features! "Real Time" clock on/off controller. Attract mode. Automated background music. Lock-out so looks & acts full with as few as 4 CDs.

**PLUS ...** Eye-catching "Laser Rod" animation and fun-to-watch visible CD changing mechanism!
