

# The most precious of musical gems. 2000 songs in the space of a pay phone.

The glimmer of a facet from first one emerald. Then another below it. Then another below that. And still yet another. Until, finally, the glimmering emeralds lead the eye to the glow of a CD-playing chamber ... viewed through a wondrously faceted emerald itself.

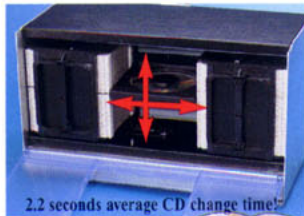

Yes, it's all done with translucent forms and the varying of illumination intensity behind layered silk-screened glass. But the effects, subtle as they may be, are stunningly beautiful.

And the HyperBeam™ laser sound that it presents to its listeners is equally beautiful. Impeccably clean, thunderously powerful, and an immense 100-CD musical library to select from. All in a space barely 2 feet by 3.

Together — the animated beauty, incomparable sound, and wall-hanging compactness — make Emerald Ice™ the ideal jukebox choice for locations of distinction, those that especially prize the art of captivating design. And, of course, its technologically advanced, flawlessly performing HyperBeam sound system makes Emerald Ice the ideal choice for its operators.

## Standard Features

- The world's fastest 100-CD single player changer ... now even faster! More paid for plays compressed into less time.

- The world's most protective CD handling & storage ... now even better! CDs never so much as touched. All "cradled" in individual trays. Snap in & out magazines.

- The world's most technologically advanced system ... now even further advanced! "Componentized" system - components plug in & out. Even more compact changer. Even more efficient electronics.

- The world's most ergonomically perfect controls ... easy to use!

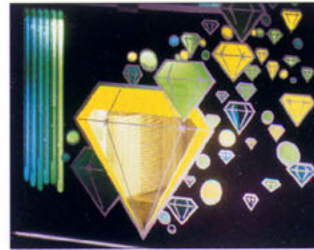

Palm-press selection button. Telephone-like keypad entry. Eye-level positioned title strips.

- The world's most feature-packed jukebox ... over 100 programmable functions & features!

"Real Time" clock on/off controller. Attract mode. Automated background music. Lock-out so looks & acts full with as few as 4 CDs.

## PLUS ...

Eye-catching animation and fun-to-watch visible CD changing mechanism!
